Foreword

Wire hanger is one of clothes hangers in our daily life.

Clothes hanger was inspired by a coat hook that was invented in 1869 by O. A. North of New Britain. The most-used hanger is in the shape of triangle, (or shoulder-shape). As it is known to all, triangle is the strongest structure, in that way, the hanger can withstand heavy clothes which heavier than the hanger itself. Walcoom is a wire mesh foreign trade company of more than 20 years sale experience. Undoubtedly, Walcoom only provides metal wire hangers with different kinds of surface treatment. We have four types of wire hangers for you to choose, there are regular wire hanger, PVC coated hanger, foam hanger and aluminum hanger.

Each wire hanger has its own prominent features. Regular wire hanger has all sorts of novel and stylish shape. PVC coated hanger is good in anti-rust and corrosion, additionally, people will not get hurt thanks to soft PVC protection as well as foam hanger. Aluminum hanger is so light but durable enough for big and heavy clothes.
